Mr. Peter Kimon
Exxon International
Tanker R&D Division
PA 222/B320

Dear Peter:

This is to advise you that the CO₂ Greenhouse Project on board the "S/s Esso Atlantic" has been terminated.

In order to finalize our sea-going operation, Bill Kobasz and Bob Schroeder of ER&E plan to board the Esso Atlantic in Lisbon, Portugal during the dry dock period. They will be responsible for the removal of all project related material and equipment. Completion of the equipment removal will be subject to the approval of the assigned dry dock superintendent.

We are grateful for the excellent cooperation your division has given us since this unique project began some three years ago.

Sincerely,

ROGER W. COHEN
